Summary

Computer Science graduate skilled in AI/ML, full-stack development, and database management. Experienced in Python, web & mobile development, and software documentation. Currently pursuing an AI certification to strengthen expertise, with a strong passion for applying knowledge to real-world projects.

Professional Experience

| | | |
|------------------|------------------------|--------------|
| Intern Developer | LumenSoft Technologies | Aug–Oct 2024 |
|------------------|------------------------|--------------|

- Developed a retail billing system with inventory & discount management.
- Worked on frontend (JavaScript, Bootstrap, AJAX) and backend (ADO.NET, SQL Server).
- Gained hands-on experience in full-stack development within a corporate setting.

Academic Projects

Digit Recognition System – CNN for handwritten digits (TensorFlow, Keras, OpenCV).
Residential Management System – Managed residents, tenancy, and dues (MySQL, Xampp).
Online Food Ordering System – Web app for online orders (HTML, CSS, PHP).
Mobile Utility App – Full Android app with UI design & functional features (Kotlin/Java).

Education

| | |
|--------------------------------------|---------------------------|
| University of Central Punjab, Lahore | BS Computer Science, 2025 |
| Punjab Group of Colleges, Lahore | ICS, 2021 |
| Divisional Public School, Lahore | Matriculation (CS), 2019 |

Technical Skills

Full-Stack Development: HTML, CSS, JavaScript, PHP, ADO.NET
Database: MySQL, SQL Server
Data Science: Pandas, NumPy, Matplotlib, Seaborn
Machine Learning: Scikit-learn, TensorFlow, PyTorch (basics)
Software: Project documentation, version control (Git/GitHub)

Additional Information

AI Certification (NAVTTTC) – Expected Nov 2025
Interests: Technology trends, problem-solving, startup culture
